### Definitions

**Open Burning.** A fire larger than 48 inches in diameter with the intent to burn debris or clear fields for personal or agricultural purposes.

**Campfire.** An outside fire 48 inches or less in diameter which is used for cooking, branding, personal warmth, lighting, ceremonial, or aesthetic purposes. Campfires are open fires, usually built on the ground, from native fuels or charcoal, including charcoal grills.

### Notes

These restrictions do not apply to incorporated cities or towns unless they enact similar restrictions

Custer Gallatin National Forest may declare fire restrictions on the national forest independently of the County. Please check with the US Forest Service for any restrictions.

\* A Carbon County fire restriction exemption can be applied for under Stage I or II Restrictions. The application must be approved by the Fire Chief of the local Rural Fire District.

<sup>1</sup> Prohibited between the hours of 1PM and 1AM.
